

THE PERFECT APPEARANCE.

HOW THE IMPRESSBIND 280
CAN REVOLUTIONISE THE WAY YOU BIND
YOUR DOCUMENTS.

THERE ARE PLENTY OF BINDING SYSTEMS.
BUT WHICH IS THE FASTEST, THE EASIEST
AND DELIVERS THE MOST IMPRESSIVE RESULTS?

PROFESSIONAL RESULTS IN SECONDS!

BIND DOCUMENTS YOURSELF
EASILY WITH IMPRESSBIND 280.

What good is an idea if the presentation isn't just right? With impressBIND from Leitz, you can give your most important documents the frame they deserve.

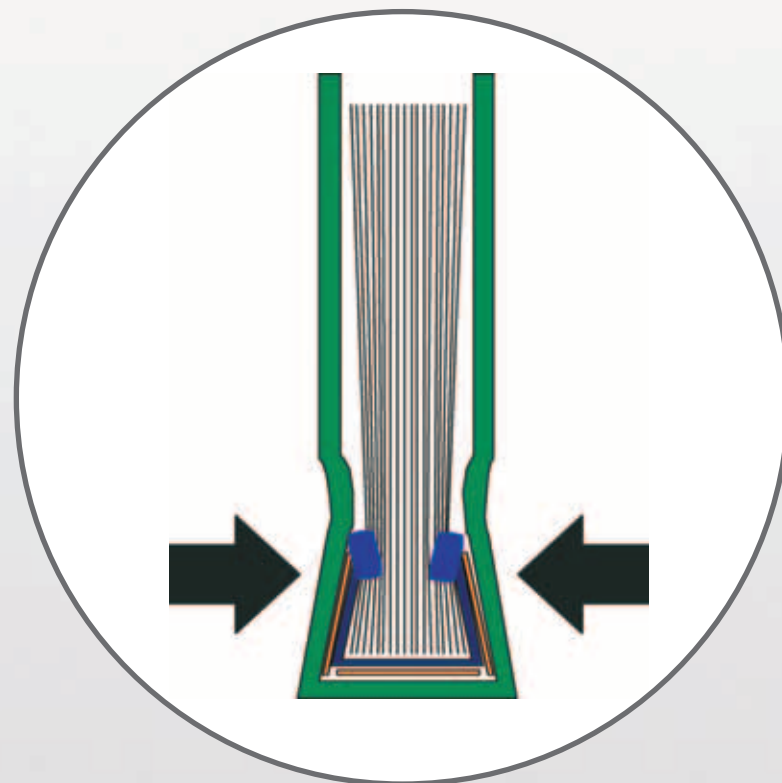

ImpressBIND results are far more impressive than traditional binding solutions – it looks like a professionally bound document! But it doesn't stop there! In speed and simplicity, impressBIND also outshines all other binding systems. Your documents and presentations have never looked so good.

ONCE AGAIN, WE'VE IMPROVED BINDING TECHNOLOGY.

With impressBIND 280, Leitz has found a solution that makes professional binding easier and more attractive than it's ever been. Impressive and professional results in seconds. In just a few steps, you can hold a perfectly bound document of up to 280 sheets in your hands. Just insert the paper, press it together and it's ready. The bound paper holds together securely – without perforating or gluing.

With impressBIND 280, all documents from 10 to 280 sheets can be bound. In addition, this high-end machine doesn't require any pre-adjustment and can be stowed vertically or horizontally. Along with a whole array of sophisticated technical details, impressBIND 280 is solidly constructed and is backed by a three-year warranty.

The covers have been improved too.

Through the adjustment of the metal channel, the binding slot is stable and the insertion of the paper is now very easy.

A PERFECTLY BOUND DOCUMENT IN 15 SECONDS.

With the impressBIND 280, anyone can achieve the perfect results in just a few steps. The extensive selection of covers and variety of materials enable you to be individual. It's easy to use – no complicated processes to learn.

With impressBIND 280, you'll be an experienced binder in just a short time.

Step 1

Insert the paper in the cover.

Select the cover of your choice and insert the document to be bound inside.

Step 2

Pull down the lever.

After you have inserted the cover with all documents in the binding slot, pull down the lever once or twice – the indicator will tell you when your document is ready.

Step 3

Remove the document from the machine.

Your "classic" is ready. The bound document can be removed from the machine.

WELL CONCEIVED DOWN TO THE LAST DETAIL.

At a glance.

When the colour of the indicator has switched from red to completely green, the binding is perfect. And you only need a maximum of two pushes.

How would you like it?

After binding, with the help of the locking device, you can stow the impressBIND 280 vertically or horizontally and save space.

It couldn't be easier.

With the help of the integrated measuring scale, check the thickness of your document to determine which cover is right.

Cover Size	Pages
28.0 mm	246-280
24.5 mm	211-245
21.0 mm	176-210
17.5 mm	141-175
14.0 mm	106-140
10.5 mm	71-105

INNOVATIVE AND PRACTICAL. THE NEW POLYFOAM COVERS.

WHEN YOU REALLY WANT TO DO IT IN STYLE. THE EXCLUSIVE DOCUMENT- BINDING COVERS IN THE VIVANTO DESIGN.

The great success of the Leitz Vivanto Design Line inspired us to develop a new, innovative impressBIND cover. The lightweight, durable polyfoam covers in black (outside colour) and anthracite (inside colour) are not only characterised by their classical design, but by their resistance to water, dirt and fingerprints.

PERSONAL TOUCH INCLUDED. THE CUSTOMIZABLE PRESENTATION DOCUMENT-BINDING COVER.

If you like being stylish, modern and individual, you should consider the presentation binding covers made of high quality polypropylene. With the practical A4 inserts, you can customise the front cover quickly and easily.

THE BESTSELLER LIST.

The polyfoam covers in Vivanto Design and the presentation document-binding covers made of polypropylene.

Classics: both new designs or individualised. The polyfoam covers in Vivanto Design and the customizable presentation bookbinding covers allows make a superb impression.

JUST AS EASY TO ORDER AS TO BIND.

With impressBIND, you make the most of your documents and you're ready for the future too. And speaking of the future: as you know from other Leitz innovations, every impressBIND 280 is backed by a full three-year warranty. So what are you waiting for?

IMPRESSBIND 280.

- Impressive binding results that usually only a professional bookbinder could achieve.
- In just a few steps, you can hold a perfectly bound document in your hands. Just insert the paper, press it together and it's ready!
- The bound paper holds together securely – without perforating or gluing.
- All covers (up to 280 sheets) can be bound.
- No pre-adjustment necessary.
- Can be stowed vertically or horizontally.
- The integrated measuring scale always "delivers" the right cover size.
- The green indicator light tells you when the document has been perfectly bound.

BINDING DOESN'T HAVE TO BE FOREVER.
THE DEBINDING ACCESSORIES.

Debinding with the impressBIND 280 is just as easy as binding when you order the debinding accessory. It's indispensable for anyone who wants to quickly add, replace or correct a page or two in their document.

Product Code	Description	Colour
7389-00-00	Debindier	silver

- Debinding is also very simple.**
Opening a bound document is just as easy as binding it.
1. Open the bound document in the middle
 2. Insert the debinding accessory with the soft wedge.
 3. Fasten to the integrated bracket and release the binding simply by pressing the lever. Ready.

And of course, the covers can be used again – no problem.
